

## NRG Exceeds \$1 Million in Cosgrove Scholarships Awarded

June 29, 2016

### 2016 Winning High School Seniors Are Awarded Up To \$240,000 Total for Academic and Civic Accomplishments

PRINCETON, N.J. – June 29, 2016 – NRG Energy today announced the winners of its sixth annual Howard E. Cosgrove Academic Scholarship. Since its inception in 2011, twenty five students have been awarded more than \$1 million in scholarships. This year, four winners were selected due to their overwhelming accomplishments as high school students.

"Each Cosgrove Scholarship winner is a role model in their community for their dedication to academics and their commitment to volunteerism," said Jennifer Wallace, SVP, Administration, who oversees the program at NRG. "NRG is proud to invest in America's future leaders by awarding this scholarship to these exemplary students."

The competitive scholarship is open to college-bound high school seniors who have a parent working as a full time employee at NRG. This year's winners hail from California, New Jersey, Texas and Virginia. The scholarship, which is named after NRG's Chairman of the Board, Howard Cosgrove, is awarded based on merit and selections are made by an independent committee. Each winner will be awarded \$15,000 per year, with a total of up to \$60,000, to complete their undergraduate degrees, subject to certain academic requirements.

The 2016 NRG Cosgrove Scholarship recipients are:

- Travis Chan of Skillman, New Jersey
- Laetitia Coustar of Los Angeles, California
- Callan Cramer of McLean, Virginia
- Cameron Egger of Needville, Texas

#### About NRG

NRG is the leading integrated power company in the U.S., built on the strength of the nation's largest and most diverse competitive electric generation portfolio and leading retail electricity platform. A Fortune 200 company, NRG creates value through best in class operations, reliable and efficient electric generation, and a retail platform serving residential and commercial businesses. Working with electricity customers, large and small, we continually innovate, embrace and implement sustainable solutions for producing and managing energy. We aim to be pioneers in developing smarter energy choices and delivering exceptional service as our retail electricity providers serve almost 3 million residential and commercial customers throughout the country.
