

## NRG Energy, Inc. Reports First Quarter 2019 Results

May 2, 2019

- **Completed \$500 million of the \$1 billion 2019 share repurchase program**
- **Returning to service 385 MW Combined Cycle Gas Turbine Gregory plant in ERCOT this summer**
- **Reaffirming 2019 guidance**

PRINCETON, N.J.--(BUSINESS WIRE)--May 2, 2019-- NRG Energy, Inc. (NYSE: NRG) today reported first quarter 2019 income from continuing operations of \$94 million, or \$1.72 per diluted common share and Adjusted EBITDA for the first quarter was \$333 million.

“Our integrated platform delivered strong first quarter results,” said Mauricio Gutierrez, NRG President and Chief Executive Officer. “We are preparing for summer operations and executing on our capital allocation priorities, including returning capital to shareholders.”

### Consolidated Financial Results

NRG completed the sale of its Renewables Platform, and its interests in NRG Yield, as well as the South Central Portfolio on August 31, 2018, and February 4, 2019, respectively. As a result, 2018 financial information for the South Central Portfolio, NRG Yield, the Renewables Platform and Carlsbad Energy Center was recast to reflect the presentation of these entities as discontinued operations. South Central Portfolio and Carlsbad Energy Center are also treated as discontinued operations through date of sale in 2019.

(\$ in millions)	Three Months Ended

Segment		
Retail	\$ 111	\$ 944
Generation <sup>a</sup>	114	(573 )
Corporate	(131 )	(133 )
Income from Continuing Operations	\$ 94	\$ 238

a. In accordance with GAAP, 2018 results have been recast to reflect the discontinued operations of the South Central Portfolio, NRG Yield, the Renewables Platform and Carlsbad Energy Center.

First quarter Income from Continuing Operations was \$94 million, \$144 million lower than first quarter 2018, driven by Retail gains and partially offsetting Generation losses on mark-to-market hedge positions in 2018 as a result of ERCOT heat rate expansion and increases in electricity prices.

a. In accordance with GAAP, 2018 results have been recast to reflect the discontinued operations of the South Central

Portfolio, NRG Yield, the Renewables Platform and Carlsbad Energy Center.

b. See Appendices A-1 through A-2 for Operating Segment Reg G reconciliations.

**Retail:** First quarter Adjusted EBITDA was \$153 million, \$35 million lower than first quarter 2018, driven by higher supply costs, partially offset by cost reduction and margin enhancement initiatives, as well as the acquisition of XOOM.

**Generation:** First quarter Adjusted EBITDA was \$184 million, \$29 million higher than first quarter 2018, driven by:

- Texas Region: \$31 million increase due to higher realized power prices and lower operating expenses, partially offset by lower NOx emission sales; and
- East/West<sup>1</sup>: \$2 million decrease due to deconsolidation impact of the non-controlling interest in Ivanpah and Agua Caliente, deactivation of Encina and sale of BETM, partially offset by higher capacity revenues, reduction in Midwest Generation asbestos liability following settlement and lower operating expenses.

<b>Total Liquidity, excluding collateral received</b>	<b>\$ 2,675</b>	<b>\$ 1,977</b>

As of March 31, 2019, NRG-level cash was at \$0.9 billion, and \$1.8 billion was available under the Company's credit facilities. Total liquidity was \$2.7 billion, including restricted cash. Overall liquidity as of the end of the first quarter 2019 was \$698 million higher than at the end of 2018 driven by asset sale proceeds net of share repurchases executed during the period.

## NRG Strategic Developments

### Transformation Plan

During the first quarter of 2019, NRG realized \$131 million of its 2019 cost savings target as part of the previously announced Transformation Plan, and is on track to realize \$590 million in savings in 2019. Margin Enhancement provided \$20 million in uplift in first quarter toward the \$135 million 2019 target. With respect to the asset sales, on February 4, 2019, the Company completed the sale of its South Central Portfolio to Cleco, for approximately \$1.0 billion<sup>2</sup> and on February 27, 2019, completed the sale of Carlsbad to Global Infrastructure Partners III (GIP) for \$385 million<sup>2</sup>. NRG's total cumulative asset sales under the Transformation Plan are approximately \$3.0 billion<sup>2</sup>.

### Gregory Return to Service

On May 2, 2019, in advance of the anticipated tight ERCOT summer, NRG announced the planned return to service of its inactive Gregory natural gas plant, in Corpus Christi, Texas. The plant is expected to come on line in June 2019 as an efficient combined cycle facility, providing an additional 385 MWs of dispatchable capacity to support ERCOT demand.

### 2019 Guidance

NRG is reaffirming its guidance range for 2019 with respect to Adjusted EBITDA, Cash From Operations and Free Cash Flow before Growth Investments (FCFbG) as set forth below.

**Table 4: 2019 Adjusted EBITDA, Cash from Operations, and FCFbG Guidance**

(\$ in millions)	2019 Guidance
Adjusted EBITDA <sup>a</sup>	\$1,850-\$2,050
Cash From Operations	\$1,405-\$1,605
FCFbG	\$1,250-\$1,450

a. Non-GAAP financial measure; see Appendix Tables A-5 for GAAP Reconciliation to Net Income that excludes fair value adjustments related to derivatives. The Company is unable to provide guidance for Net Income due to the impact of such fair value adjustments related to derivatives in a given year

<sup>2</sup> Excludes transaction fees and other purchase price adjustments

## Capital Allocation Update

During the first quarter of 2019, NRG completed the remaining \$250 million of the \$500 million share repurchase program announced on the third quarter 2018 earnings call. Additionally, through May 2, 2019, NRG completed the first \$500 million of the \$1 billion share repurchase program announced on the fourth quarter 2018 earnings call through a \$400 million Accelerated Share Repurchase program and other repurchases at an average price of \$42.21 per share.<sup>3</sup>

On April 8, 2019, NRG declared a quarterly dividend on the Company's common stock of \$0.03 per share, payable May 15, 2019, to stockholders of record as of May 1, 2019, representing \$0.12 on an annualized basis.

The Company's common stock dividend, debt reduction and share repurchases are subject to available capital, market conditions and compliance with associated laws and regulations.

<sup>3</sup> As of April 30, 2019, 267.2 million shares outstanding

### Earnings Conference Call

### Safe Harbor Disclosure

In addition to historical information, the information presented in this press release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act. These statements involve estimates, expectations, projections, goals, assumptions, known and unknown risks and uncertainties and can typically be identified by terminology such as "may," "should," "could," "objective," "projection," "forecast," "goal," "guidance," "outlook," "expect," "intend," "seek," "plan," "think," "anticipate," "estimate," "predict," "target," "potential" or "continue" or the negative of these terms or other comparable terminology. Such forward-looking statements include, but are not limited to, statements about the Company's future revenues, income, indebtedness, capital structure, plans, expectations, objectives, projected financial performance and/or business results and other future events, and views of economic and market conditions.

Although NRG believes that its expectations are reasonable, it can give no assurance that these expectations will prove to be correct, and actual results may vary materially. Factors that could cause actual results to differ materially from those contemplated herein include, among others, general economic conditions, hazards customary in the power industry, weather conditions, competition in wholesale power markets, the volatility of energy and fuel prices, failure of customers to perform under contracts, changes in the wholesale power markets, changes in government regulations, the condition of capital markets generally, our ability to access capital markets, cyberterrorism and inadequate cybersecurity, unanticipated outages at our generation facilities, adverse results in current and future litigation, failure to identify, execute or successfully implement acquisitions, repowerings or asset sales, our ability to implement value enhancing improvements to plant operations and companywide processes, our ability to implement and execute on our publicly announced transformation plan, including any cost savings and margin enhancement, our ability to achieve our net debt targets, our ability to proceed with projects under development or the inability to complete the construction of such projects on schedule or within budget, the inability to maintain or create successful partnering relationships, our ability to operate our businesses efficiently, our ability to retain retail customers, our ability to realize value through our commercial operations strategy, the ability to successfully integrate businesses of acquired companies, our ability to realize anticipated benefits of transactions (including expected cost savings and other synergies) or the risk that anticipated benefits may take longer to realize than expected, and our ability to execute our Capital Allocation Plan. Debt and share repurchases may be made from time to time subject to market conditions and other factors, including as permitted by United States securities laws. Furthermore, any common stock dividend is subject to available capital and market conditions.

NRG undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. The adjusted EBITDA, free cash flow guidance and excess cash guidance are estimates as of May 2, 2019. These estimates are based on assumptions the company believed to be reasonable as of that date. NRG disclaims any current intention to update such guidance, except as required by law. The foregoing review of factors that could cause NRG's actual results to differ materially from those contemplated in the forward-looking statements included in this press release should be considered in connection with information regarding risks and uncertainties that may affect NRG's future results included in NRG's filings with the Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov).

Maintenance capital expenditures, net	(145) - (165)
Environmental capital expenditures, net	(0) - (5)
Free Cash Flow before Growth	\$1,250 - \$1,450

EBITDA and Adjusted EBITDA are non-GAAP financial measures. These measurements are not recognized in accordance with GAAP and should not be viewed as an alternative to GAAP measures of performance. The presentation of Adjusted EBITDA should not be construed as an inference that NRG's future results will be unaffected by unusual or non-recurring items.

EBITDA represents net income before interest (including loss on debt extinguishment), taxes, depreciation and amortization. EBITDA is presented because NRG considers it an important supplemental measure of its performance and believes debt-holders frequently use EBITDA to analyze operating performance and debt service capacity. EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our operating results as reported under GAAP. Some of these limitations are:

- EBITDA does not reflect cash expenditures, or future requirements for capital expenditures, or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debt or cash income tax payments;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and
- Other companies in this industry may calculate EBITDA differently than NRG does, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to use to invest in the growth of NRG's business. NRG compensates for these limitations by relying primarily on our GAAP results and using EBITDA and Adjusted EBITDA only supplementally. See the statements of cash flow included in the financial statements that are a part of this news release.

Adjusted EBITDA is presented as a further supplemental measure of operating performance. As NRG defines it, Adjusted EBITDA represents EBITDA excluding impairment losses, gains or losses on sales, dispositions or retirements of assets, any mark-to-market gains or losses from accounting for derivatives, adjustments to exclude the Adjusted EBITDA related to the non-controlling interest, gains or losses on the repurchase, modification or extinguishment of debt, the impact of restructuring and any extraordinary, unusual or non-recurring items plus adjustments to reflect the Adjusted

EBITDA from our unconsolidated investments. The reader is encouraged to evaluate each adjustment and the reasons NRG considers it appropriate for supplemental analysis. As an analytical tool, Adjusted EBITDA is subject to all of the limitations applicable to EBITDA. In addition, in evaluating Adjusted EBITDA, the reader should be aware that in the future NRG may incur expenses similar to the adjustments in this news release.

Management believes Adjusted EBITDA is useful to investors and other users of NRG's financial statements in evaluating its operating performance because it provides an additional tool to compare business performance across companies and across periods and adjusts for items that we do not consider indicative of NRG's future operating performance. This measure is widely used by debt-holders to analyze operating performance and debt service capacity and by equity investors to measure our operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired. Management uses Adjusted EBITDA as a measure of operating performance to assist in comparing performance from period to period on a consistent basis and to readily view operating trends, as a measure for planning and forecasting overall expectations, and for evaluating actual results against such expectations, and in communications with NRG's Board of Directors, shareholders, creditors, analysts and investors concerning its financial performance.

Adjusted cash flow from operating activities is a non-GAAP measure NRG provides to show cash from operations with the reclassification of net payments of derivative contracts acquired in business combinations from financing to operating cash flow, as well as the add back of merger, integration and related restructuring costs. The Company provides the reader with this alternative view of operating cash flow because the cash settlement of these derivative contracts materially impact operating revenues and cost of sales, while GAAP requires NRG to treat them as if there was a financing activity associated with the contracts as of the acquisition dates. The Company adds back merger, integration related restructuring costs as they are one time and unique in nature and do not reflect ongoing cash from operations and they are fully disclosed to investors.

Free cash flow (before Growth) is adjusted cash flow from operations less maintenance and environmental capital expenditures, net of funding, preferred stock dividends and distributions to non-controlling interests and is used by NRG predominantly as a forecasting tool to estimate cash available for debt reduction and other capital allocation alternatives. The reader is encouraged to evaluate each of these adjustments and the reasons NRG considers them appropriate for supplemental analysis. Because we have mandatory debt service requirements (and other non-discretionary expenditures) investors should not rely on free cash flow before Growth as a measure of cash available for discretionary expenditures.

Free Cash Flow before Growth is utilized by Management in making decisions regarding the allocation of capital. Free Cash Flow before Growth is presented because the Company believes it is a useful tool for assessing the financial performance in the current period. In addition, NRG's peers evaluate cash available for allocation in a similar manner and accordingly, it is a meaningful indicator for investors to benchmark NRG's performance against its peers. Free Cash Flow before Growth is a performance measure and is not intended to represent net income (loss), cash from operations (the most directly comparable U.S. GAAP measure), or liquidity and is not necessarily comparable to similarly titled measures reported by other companies.
