Reliant Introduces Flat Electricity Bills with its new Predictable 12 Plan

-First-Of-Its Kind Plan Protects from Seasonal Bill Spikes-

HOUSTON, June 4, 2014 – We all want to be in control of our budget, especially when it comes to electric bills. And now, Texas families can. Today Reliant announced the Predictable 12 electricity plan. It's a first-of-its-kind plan in the competitive electricity market that keeps customer electricity costs the same every month, for 12 months, with no surprises.

"Reliant wanted to create a plan for our customers that would give them peace of mind around their bills, and do away with surprises that come with seasonal bill increases," said Elizabeth Killinger, president of NRG Texas Retail and Reliant. "Our hope is that this plan makes budgeting easier for our customers living on a fixed income, and serves as just one more way that Reliant is striving to be there for its customers when they need us most."

While Predictable 12 eliminates seasonal bill increases, it also eliminates variations in customer bills throughout the year as the monthly price includes Transmission and Distribution Service Provider (TDSP) charges and will not be affected by changes in TDSP fees.

For more information about the Reliant Predictable 12 plan, call 1-866-RELIANT or visit www.reliant.com/predictable.

About Reliant

Reliant provides electricity, smart energy solutions, and energy services to business and residential customers across Texas. Reliant is part of NRG (NYSE: NRG), a Fortune 500 company that is at the forefront of changing how people think about, buy and use energy. Backed by a diverse portfolio of about 100 power generating facilities that can support over 46 million homes nationwide, NRG's retail businesses, including Reliant, collectively comprise Texas' largest retail energy provider and serves almost 3 million customers in 10 states and the District of Columbia.
