NRG Energy, Inc. Reports Third Quarter 2018 Results and Initiates 2019 Guidance

- Closed on sale of NRG’s interest in NRG Yield and the Renewables Platform for \$1.348 billion¹
- Executing on second \$500 million share repurchase commitment, totaling \$1 billion in 2018
- Announcing an additional \$500 million share repurchase authorization
- Redeemed \$485 million balance of 2022 senior notes and prepaid \$155 million of Term Loans, achieving corporate debt reduction target of \$640 million; on track to achieve 3.0x net debt / EBITDA for 2018
- Narrowing 2018² guidance to the upper-half of range and initiating 2019 Adjusted EBITDA and FCFbG guidance
- C. John Wilder announces retirement from the Board of Directors

PRINCETON, NJ - November 8, 2018 - NRG Energy, Inc. (NYSE: NRG) today reported third quarter 2018 income from continuing operations of \$306 million. Income from continuing operations for the first nine months of 2018 of \$601 million, or \$1.91 per diluted common share, compares to income from continuing operations of \$116 million, or \$0.56 per diluted common share for the first nine months of 2017. Adjusted EBITDA for the three and nine months ending September 30, 2018, was \$677 million and \$1,580 million, respectively. Year-to-date cash from continuing operations totaled \$758 million.

“Our quarterly and year to date results demonstrate the benefits of the integrated retail and generation platform,” said Mauricio Gutierrez, President and Chief Executive Officer, NRG. “We are making significant progress on achieving our Transformation Plan targets and capital allocation priorities.”

Consolidated Financial Results

On August 31, 2018, NRG completed the sale of its interest in NRG Yield and the Renewables Platform. As a result, the financial information for NRG Yield, the Renewables Platform and Carlsbad Energy Center has been deconsolidated from the current period and all historical periods have been recast to reflect the presentation of these entities as discontinued operations.

Retail: Third quarter Adjusted EBITDA was \$269 million, \$10 million lower than third quarter 2017, driven by higher margin enhancement costs. Gross margin was \$25 million higher as a result of our margin enhancement initiatives (including both value expansion and customer growth), coupled with increased usage, partially offset by higher supply costs.

Generation: Third quarter Adjusted EBITDA was \$421 million, \$124 million higher than third quarter 2017, driven by:

- Gulf Coast Region: \$115 million increase due to higher generation and higher realized energy prices; and
- East/West³: \$9 million increase due to higher capacity revenues, partially offset by increased operating costs and the deconsolidation impact of the non-controlling interest in Ivanpah and Agua Caliente.

Corporate: Third quarter Adjusted EBITDA was \$(13) million, \$11 million better than the third quarter 2017, driven by lower G&A expenses associated with the Transformation Plan.

As of September 30, 2018, NRG-level cash was at \$1.4 billion, and \$1.5 billion was available under the Company's credit facilities. Total liquidity was \$2.8 billion, including restricted cash. Overall liquidity as of the end of the third quarter 2018 was \$84 million higher than at the end of 2017.

NRG Strategic Developments

Transformation Plan

Through the third quarter of 2018, NRG realized \$375 million of its 2018 cost savings target as part of the previously announced Transformation Plan, and is on track to realize \$500 million in savings in 2018. With respect to the asset sales under the Transformation Plan, on August 31, 2018, the Company completed the sale of its interest in NRG Yield, Inc. and the Renewables Platform to GIP, for approximately \$1.348 billion in cash proceeds. NRG is narrowing asset sale proceeds to \$3.1 billion from \$3.2 billion. The \$1 billion sale of South Central is targeted to close by year end 2018 and the balance, Carlsbad and Agua Caliente, in 2019.

Agua Caliente Deconsolidation

As a result of the sale of NRG Yield and the Renewables Platform, the Company no longer controls the Agua Caliente project. Due to this change in control, the Company has deconsolidated the Agua Caliente project from its financial results and is accounting for the project as an equity method investment going forward. This is unrelated to the Company's planned sale of its remaining interest in Agua Caliente as described in the preceding paragraph.

2018 and 2019 Guidance

NRG has narrowed the range of its Adjusted EBITDA and FCF before Growth Investments guidance for 2018 to reflect the completed sale of NRG Yield and the Renewables Platform, as well as the previously announced sale of the South Central business unit. Additionally, NRG is initiating guidance for fiscal year 2019, which also reflects the aforementioned sales.

⁵ Non-GAAP financial measure; see Appendix Tables A-1 through A-5 for GAAP Reconciliation to Net Income that excludes fair value adjustments related to derivatives. The Company is unable to provide guidance for Net Income due to the impact of such fair value adjustments related to derivatives in a given year

Capital Allocation Update

During the third quarter of 2018, NRG executed on its second \$500 million share repurchase commitment through an Accelerated Share Repurchase program. This brings the total amount of shares to be repurchased in 2018 to \$1 billion. In addition, the Board of Directors of the Company has authorized an additional \$500 million share repurchase program to be executed into 2019.

To remain leverage-neutral in connection with the \$575 million convertible senior notes issued in second quarter of 2018, NRG completed the repurchase of \$575 million of its 2022, 2027 and 2028 senior unsecured notes during the third quarter of 2018, generating approximately \$20 million of annual interest expense savings⁷.

Additionally, the Company has completed its targeted \$640 million of debt reduction through the redemption of \$485 million of its outstanding 6.250% senior notes due 2022 and the prepayment of \$155 million of Term Loans, and is on track to achieve a target net debt to Adjusted EBITDA ratio of 3.0x for 2018.

On October 17, 2018, NRG declared a quarterly dividend on the Company's common stock of \$0.03 per share, payable November 15, 2018, to stockholders of record as of November 1, 2018, representing \$0.12 on an annualized basis.

The Company's common stock dividend, debt reduction and share repurchases are subject to available capital, market conditions and compliance with associated laws and regulations.

Board of Directors

C. John Wilder informed the Board of Directors that he will retire from the Board, effective November 8, 2018. Mr. Wilder joined the Board in February 2017 and served on the Company's Business Review Committee (dissolved in July 2017) and Finance and Risk Management Committee. In connection with Mr. Wilder's resignation, the size of the Board will be reduced from eleven (11) to ten (10) members.

According to C. John Wilder, Independent Director of the Board, "Today, I am announcing my retirement from the NRG Board of Directors." Mr. Wilder continues, "I applaud the advancements made by the company in the culture and strategy since Mauricio Gutierrez took over as CEO, and most recently with the adoption and execution of the Transformation Plan. This has been a critical year in the Company's transformation and I am proud of the course charted by my fellow directors and management in rightsizing the business, strengthening the balance sheet, achieving cost excellence and adopting capital allocation principles. I believe NRG has the right team in place to continue its relentless execution that will create significant long-term value and I am excited to remain a long-term shareholder."

Larry Coben, Chairman of the Board, continued, "On behalf of the Board of Directors, I want to thank John for his outstanding service on the Board and valued direction on all Board matters, particularly the Company's Transformation Plan. Going forward, the Board will continue to assess our size and composition to ensure the proper level of expertise and oversight on behalf of our shareholders."

Mr. Gutierrez added, "John has provided valuable insights and thoughtful counsel as a member of the Board. I want to thank him for his service, and look forward to having him as a valued long-term shareholder."

⁷ Interest savings assumes average 6.2% interest rate on \$575 million debt retired in 2018

Safe Harbor Disclosure

In addition to historical information, the information presented in this communication includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act. These statements involve estimates, expectations, projections, goals, assumptions, known and unknown risks and uncertainties and can typically be identified by terminology such as "may," "should," "could," "objective," "projection," "forecast," "goal," "guidance," "outlook," "expect," "intend," "seek," "plan," "think," "anticipate," "estimate," "predict," "target," "potential" or "continue," or the negative of these terms or other comparable terminology. Such forward-looking statements include, but are not limited to, statements about the Company's future revenues, income, indebtedness, capital structure, plans, expectations, objectives, projected financial performance and/or business results and other future events, and views of economic and market conditions.

Although NRG believes that its expectations are reasonable, it can give no assurance that these expectations will prove to be correct, and actual results may vary materially. Factors that could cause actual results to differ materially from those contemplated herein include, among others, general economic conditions, hazards customary in the power industry, weather conditions, competition in wholesale power markets, the volatility of energy and fuel prices, failure of customers to perform under contracts, changes in the wholesale power markets, changes in government regulations, the condition of capital markets generally, our ability to access capital markets, cyber terrorism and inadequate cyber security, unanticipated outages at our generation facilities, adverse results in current and future litigation, failure to identify, execute or successfully implement acquisitions, repowerings or asset sales, our ability to implement value enhancing improvements to plant operations and company-wide processes, our ability to implement and execute on our publicly announced transformation plan, including any cost savings, margin enhancement, asset sale, and net debt targets, our ability to proceed with projects under development or the inability to complete the construction of such projects on schedule or within budget, the timing or completion of GenOn's emergence from bankruptcy, the inability to maintain or create successful partnering relationships, our ability to operate our businesses efficiently, our ability to retain retail customers, our ability to realize value through our commercial operations strategy, the ability to successfully integrate businesses of acquired companies, our ability to realize anticipated benefits of transactions (including expected cost savings and other synergies) or the risk that anticipated benefits may take longer to realize than expected, and our ability to execute our Capital Allocation Plan. Debt and share repurchases may be made from time to time subject to market conditions and other factors, including as permitted by United States securities laws. Furthermore, any common stock dividend is subject to available capital and market conditions.

NRG undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. The adjusted EBITDA and free cash flow guidance are estimates as of November 8, 2018. These estimates are based on assumptions the company believed to be reasonable as of that date. NRG disclaims any current intention to update such guidance, except as required by law. The foregoing review of factors that could cause NRG's actual results to differ materially from those contemplated in the forward-looking statements included in this Earnings press release should be considered in connection with information regarding risks and uncertainties that may affect NRG's future results included in NRG's filings with the Securities and Exchange Commission at www.sec.gov.

EBITDA and Adjusted EBITDA are non-GAAP financial measures. These measurements are not recognized in accordance with GAAP and should not be viewed as an alternative to GAAP measures of performance. The presentation of Adjusted EBITDA should not be construed as an inference that NRG's future results will be unaffected by unusual or non-recurring items.

EBITDA represents net income before interest (including loss on debt extinguishment), taxes, depreciation and amortization. EBITDA is presented because NRG considers it an important supplemental measure of its performance and believes debt-holders frequently use EBITDA to analyze operating performance and debt service capacity. EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our operating results as reported under GAAP. Some of these limitations are:

- EBITDA does not reflect cash expenditures, or future requirements for capital expenditures, or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debt or cash income tax payments;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and
- Other companies in this industry may calculate EBITDA differently than NRG does, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to use to invest in the growth of NRG's business. NRG compensates for these limitations by relying primarily on our GAAP results and using EBITDA and Adjusted EBITDA only supplementally. See the statements of cash flow included in the financial statements that are a part of this news release.

Adjusted EBITDA is presented as a further supplemental measure of operating performance. As NRG defines it, Adjusted EBITDA represents EBITDA excluding impairment losses, gains or losses on sales, dispositions or retirements of assets, any mark-to-market gains or losses from accounting for derivatives, adjustments to exclude the Adjusted EBITDA related to the non-controlling interest, gains or losses on the repurchase, modification or extinguishment of debt, the impact of restructuring and any extraordinary, unusual or non-recurring items plus adjustments to reflect the Adjusted EBITDA from our unconsolidated investments. The reader is encouraged to evaluate each adjustment and the reasons NRG considers it appropriate for supplemental analysis. As an analytical tool, Adjusted EBITDA is subject to all of the limitations applicable to EBITDA. In addition, in evaluating Adjusted EBITDA, the reader should be aware that in the future NRG may incur expenses similar to the adjustments in this news release.

Management believes Adjusted EBITDA is useful to investors and other users of NRG's financial statements in evaluating its operating performance because it provides an additional tool to compare business performance across companies and across periods and adjusts for items that we do not consider indicative of NRG's future operating performance. This measure is widely used by debt-holders to analyze operating performance and debt service capacity and by equity investors to measure our operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired. Management uses Adjusted EBITDA as a measure of operating performance to assist in comparing performance from period to period on a consistent basis and to readily view operating trends, as a measure for planning and forecasting overall expectations, and for evaluating actual results against such expectations, and in communications with NRG's Board of Directors, shareholders, creditors, analysts and investors concerning its financial performance.

Adjusted cash flow from operating activities is a non-GAAP measure NRG provides to show cash from operations with the reclassification of net payments of derivative contracts acquired in business combinations from financing to operating cash flow, as well as the add back of merger, integration and related restructuring costs. The Company provides the reader with this alternative view of operating cash flow because the cash settlement of these derivative contracts materially impact operating revenues and cost of sales, while GAAP requires NRG to treat them as if there was a financing activity associated with the contracts as of the acquisition dates. The Company adds back merger, integration related restructuring costs as they are one time and unique in nature and do not reflect ongoing cash from operations and they are fully disclosed to investors.

Free cash flow (before Growth) is adjusted cash flow from operations less maintenance and environmental capital expenditures, net of funding, preferred stock dividends and distributions to non-controlling interests and is used by NRG predominantly as a forecasting tool to estimate cash available for debt reduction and other capital allocation alternatives. The reader is encouraged to evaluate each of these adjustments and the reasons NRG considers them appropriate for supplemental analysis. Because we have mandatory debt service requirements (and other non-discretionary expenditures) investors should not rely on free cash flow before Growth as a measure of cash available for discretionary expenditures.

Free Cash Flow before Growth is utilized by Management in making decisions regarding the allocation of capital. Free Cash Flow before Growth is presented because the Company believes it is a useful tool for assessing the financial performance in the current period. In addition, NRG's peers evaluate cash available for allocation in a similar manner and accordingly, it is a meaningful indicator for investors to benchmark NRG's performance against its peers. Free Cash Flow before Growth is a performance measure and is not intended to represent net income (loss), cash from operations (the most directly comparable U.S. GAAP measure), or liquidity and is not necessarily comparable to similarly titled measures reported by other companies.
